

CFI Forum Series - Part of Airport Open House

John Trosie, Gold Seal CFI, will lead the discussion focusing on Loss of Control – In Flight (LOC-I) fatal accidents. LOC-I is the number-one leading cause of fatal aviation accidents, followed by System Component / Power Plant Failure which usually ends up as a LOC-I event because of the “startle response”. Virtually all LOC-I accidents end up in a stall /spin fatality. Don't miss this event. Click the link below and register TODAY.

Directions: From Route 84 exit 13, Route 9 North. Continue on Route 9 North to Wappingers Falls. Right on New Hackensack Road (County Road 104) at the Duncan Donuts. Continue on New Hackensack Road left at the Dutchess County Airport

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
